## Follow Up Exercise

**What were your key takeaways from this presentation?**

1.

2.

3.

**What are you going to do to invest in yourself? (This doesn't have to be monumental. It can be something as small as starting to read 15 minutes a day about a topic you need to improve on.)**

**What are you going to do to invest in your people? (Again this doesn't need to be some grand gesture. It could start by asking them what they need.)**

**What are you passionate about?**

**What are your strengths?**

**What will live beyond you and add value to many people?**

**What do you want to be remembered for?**
